Important Rules & Procedures

DIRTcar Decals, available at pill draw, must be in place on both sides of the car prior to entering the race surface

If a driver is late and does not draw, that team will be placed at the end of the group that a car would be added next.

AMB/MyLaps Transponder must be used at all times and One-Way Driver Radio (454.0000) must be used at all times.

Order of Events, Tire Rules, and Lineups will be posted in the infield and upper pits.

ALL Driver must be present at the drivers meeting. Roll call may be done at anytime and if you are not present you will be penalized on your first event.

All original starts will be side-by-side with the front row starting the race together/ Restarts will be DIRTcar Double file all the way through the heats and LCS.

In the Feature events Restarts will be DIRTcar Double File except for the last five (5) laps. They will be single file.

Cars out of line or jumping a start will result in a caution and being penalized one (1) row.

A yellow flag means your wheels aren't turning.

If a car spins and creates a caution and you make contact and stop, you are also part of the caution.

If you spin to avoid, you'll get your spot back. If you spin and it creates a caution, but you keep going, you will blend back in the lineup.

In any event less than 50 laps, you will be allowed two (2) cautions. Events that are 50 laps or more, you will be allowed three (3) cautions.

We will only do a Green-White-Checkered Finish during the Feature only, if needed.

Hitting cars under caution or after a checkered will result in being parked for the of the night.

If you hit a car under caution and if it's a multi day show you will be parked for the weekend.

Crew members are not allowed on the track during racing action - it will result in a DQ for that race.

You must be in line and ready to go when the feature rools on the track. If you present your car after that you are LATE

It is your responsibility to be in line on time NOT OURS.

Procedures and Penalties will be enforced as outlined in the 2024 DIRTcar General Rules

All transponders must be turned in after the event - for multi-day shows they may be turned in on the final night.

If you fail to return a transponder - you will not receive a check until it is returned or you will be charged \$500.

Payout will be after the feature or mailed within five (5) business days following the event.

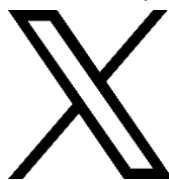

No tires to be left at the track. **ALL TIRES MUST GO HOME WITH YOU.**
